## PROFILE

Lynden Park Mall – situated on approximately 60 acres of land adjacent to Highway 403 at Wayne Gretzky Parkway in Brantford, ON – is a community hub with more than 90 retailers, restaurants, and services. Built in 1973 and expanded in 1986, the mall welcomes 3.5 million visitors annually.

## ASTE REDUCTION HIGHLIGHTS

Lynden Park Mall has a comprehensive waste management program, which includes an annual waste audit, semi-annual tenant training program, and continuous monitoring of tenant recycling procedures. Management provides each tenant with blue boxes, and tenants bring their recycling to the appropriate receptacles in the nearest waste/recycling depot.

In 2015, Lynden Park Mall diverted 87.15 per cent of waste generated at the mall to recycling. In doing so, the mall has installed a digester for food court tenants, and staff is present in the food court to help shoppers separate their waste, thereby reducing contamination.

The following consumables are also recycled:

- aluminum food or beverage cans
  HDPE (#2) plastic jugs, crates,
- corrugated cardboard
- fine paper
- glass bottles and jars
- newsprint
- steel food or beverage cans
- boxboard
- craft, glossy, and mixed paper
- molded pulp
- tissue/toweling
- PETE (#1) plastic food and beverage containers

- totes, and drums
- LDPE (#4) plastic film
- PP (#5) plastic containers
- PS (#6) plastic strapping
- disposable hot beverage cups
- polycoat cartons and tetra packs
- food waste
- beverage liquids
- cooking oil/grease
- batteries, fluorescent lamps, electronic waste

## 3RCERTIFIED

The success of any recycling program relies on the participation of individuals working collectively toward a zero waste objective. Lynden Park Mall is proud of its waste reduction program, and of all the individual efforts of its participants.
